# **WHERE THERE'S SMOKE, THERE'S HUNTER: Biden Firm Rosemont Seneca Invested in Ukrainian Biolabs**

posted by Hannity Staff - 3.10.22

First, there were reports of American biolabs in Ukraine.  
Then, they totally didn't exist according to Jen Psaki.  
Now, it seems they do exist and Hunter Biden may be involved.

According to the Gateway Pundit, “We heard on Tuesday from the US State Department that there were US Biolabs in Ukraine. Then on Wednesday the Biden regime backtracked and insisted there were no US-funded Biolabs in Ukraine.”

White House Press Secretary Jen Psaki tried to sort out the confusion on Twitter:

“We took note of Russia’s false claims about alleged U.S. biological weapons labs and chemical weapons development in Ukraine. We’ve also seen Chinese officials echo these conspiracy theories,” Psaki tweeted.

---

But when Sen. Marco Rubio (R-FL) Marco grilled Victoria Nuland, Under Secretary of State for Political Affairs, about the biolabs, she has trouble giving a straight answer.

**RUBIO:** Does Ukraine have chemical and biological weapons?

**NULAND:** Ukraine has, uh, biological research facilities which, in fact, we are now quite concerned Russian troops, Russian forces, may be seeking to gain control of. So we are working with the Ukrainians on how they can prevent any of those research materials from falling into the hands of Russian forces should they approach.

---

That's not a no.

So it sounds like we may have biolabs in Ukraine. But why the mixed messaging and the skittish behavior? Well, America's First Son and number one disaster Hunter Biden may just have a hand in this mess. Biden's firm, Rosemont Seneca, invested in the businesses that built the labs, according to recent reports.

That may be reason enough to backtrack and try to bury the story.

"The Gateway Pundit identified through the Wayback Machine that Rosemont Seneca provided capital (invested in) Metabiota as noted on the firm's website back in 2014....we also located a number of documents...that show the Department of Defense investing in the creation of Biolabs in Ukraine with the help of firm Black & Veatch," the GP reports.
